Special Arrangement for Online Examinations

Under the revamped invigilation arrangement for online examinations via OLEX and OLEX-Moodle, each student will use two devices (a computer and a mobile phone) to join two Zoom meetings, one for capturing their working environment and the other for sharing and recording the screen of their computer during the examination. This is to uphold the integrity and fairness of online examinations to assure the academic quality of the University.

For details of the required equipment and environment as well as the operation for an online examination, please refer to the Annex of the Instructions to Candidates Sitting Online Examinations prepared by Examinations Office, the guideline issued by TeLi and the Step-by-Step User Guide for Students Using OLEX presented by Information Technology Services.

If any students (including Mainland and international students) encounter difficulties in complying with the online invigilation arrangement (e.g. poor network connectivity and lack of proper scanning device for paper-and-pen examinations), they shall apply for a special arrangement with the Examinations Office via https://www.cprb.hku.hk/studentforms/ on or before April 26, 2021. For students in Hong Kong, alternative arrangements such as provision of examination venue and computer facilities on the campus can be made. Students in Hong Kong can also borrow electronic equipment from the Libraries HKUL: Equipment for loan. For Mainland and international students, special arrangement will be made in accordance with their individual circumstances. All applications will be considered on a case-by-case basis.
